BELgium WALLonia REsearch Fellowships

This programme has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement 847587 – MSCA

The BEWARE Fellowships offer the possibility for highly skilled researchers to perform a research stay in Belgium (Wallonia and Brussels) and to benefit from the expertise of innovative SMEs, research centres, universities or university colleges.

Who can apply?

Researchers from all nationalities holding a PhD or having an equivalent 4 years research experience may apply. At the closing date of the call, they must be in situation of transnational mobility (having spent less than 12 months in Belgium during the last three years).

What are the eligible research fields?

All research fields are eligible but the project must demonstrate an innovative aspect and / or enable technology transfer.

Who are the eligible hosts?

The research project is jointly submitted by the researcher and two promoters coming from:

- a SME and one of the five French-speaking universities
- a SME and one of the 19 French-speaking university colleges
- a SME and one of the 19 Walloon accredited research centres

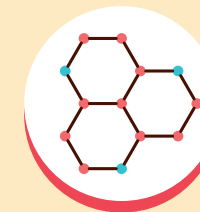

How long is the fellowship?

The total duration of the fellowship is between 24 and 36 months fairly shared between the two hosts.

What does the fellowship include?

The fellowship includes:

- a gross annual salary (with holiday pay and end-year bonus) on the basis of *chargé de recherche*
- the personal liability insurance costs
- the contribution to the Belgian Social Security (health care, retirement, child allowance...)
- a mobility allowance of 250 € / month
- a bench fee for research costs of 500 € / month

When to apply?

There are two deadlines per year: April (2020, 2021 and 2022) and October (2020 and 2021).

Calls are open at least four months before the deadline.

How to apply?

- Visit www.bewarejobs.be where you will find all information, application form and contact details
- Identify the most suitable academic and industrial hosts
- Define a common research project with the hosts

The selection process takes about three months and includes an international peer review.
